

The House and Senate Education Committees have the 6th Education Listening Session on November 7th in Albany! Senator Freddie Powell Sims and Representative Ed Rynders are hosting this great event for us. Darton College has offered to be our host venue site and we are very appreciative of their kind hospitality. Please find below the agenda for the School Superintendents and School Board members followed by a “town hall” meeting for the public to come voice their concerns about public education.
