Agenda:

HB 57 was approved by the 2015 General Assembly and signed into law by the Governor to clarify solar financing for small businesses and residential customers. The purpose of this meeting will be to look into the status of the progress that has been made in solar financing for small businesses and residential customers since the 2015 session and to seek information from the industry and power companies about the status of small scale solar and to see if there are any further obstacles or issues that the Legislature might want to consider, and seek information regarding consumer protection regarding financing for small businesses and residential customers.
