

### HHS Provider Relief Fund in Georgia

The Coronavirus Aid, Relief, and Economic Security (CARES) Act and the Paycheck Protection Program and Health Care Enhancement Act provided \$175 billion in relief funds to hospitals and other healthcare providers on the front lines of the coronavirus response. Payments from the \$50 billion general distribution, the \$12 billion targeted allocation to high impact areas, and the \$10 billion targeted allocation to rural providers are being distributed by the Department of Health and Human Services through the Health Resources and Services Administration (HRSA). This dataset represents the list of Georgia providers that received a payment from the General Distribution, High Impact Targeted Allocation and/or the Rural Targeted Allocation of the Provider Relief Fund and who have attested to receiving one or more payments and agreed to the Terms and Conditions as of May 13, 2020.

<b>Provider Relief Fund COVID-19 High-Impact Payments in Georgia</b>		
<p>The CARES Act and the Paycheck Protection Program and Health Care Enhancement Act provided \$175 billion in relief funds to hospitals and other healthcare providers on the front lines of the coronavirus response. The payments from the \$12 billion COVID-19 High-Impact Allocation is being distributed to 395 hospitals who provided inpatient care for 100 or more COVID-19 patients through April 10, 2020. \$2 billion of these payments was distributed to these hospitals based on their Medicare disproportionate share and uncompensated care payments. These 395 hospitals accounted for 71 percent of COVID-19 inpatient admissions reported to HHS from nearly 6,000 hospitals around the country. The following is a list of Georgia hospitals who have received funds as of May 8, 2020.</p>		
<b>Provider Name</b>	<b>City</b>	<b>Payment</b>
