HOUSE OF REPRESENTATIVES

Wednesday
February 13,
2019

DAILY REPORT

14th
Legislative
Day

House Budget & Research Office
(404) 656-5050

- The House will reconvene for its 15th Legislative Day on Thursday, February 14 at 10:00 a.m.
- The Rules Committee will meet at 9:00 a.m.
- Two bills / resolutions are expected to be debated on the floor.

Today on the Floor

Rules Calendar

HB 25 Contracts; provide military service members civil relief concerning certain contractual obligations due to circumstances of active duty

Bill Summary: HB 25 allows service members, meaning active duty members of the U.S. armed forces, Georgia National Guard, or Georgia Air National Guard, to terminate a contract with a provider of television, video, and audio programming services; internet access services; or health spa or gym services when such service member is ordered to relocate to a location that does not support identical contractual services from that provider for a period of at least 90 days. Additionally, the Code's reference to the 'Servicemembers Civil Relief Act' regarding self-service storage facilities is updated to reflect current federal numeration.

Next on the Floor from the Committee on Rules

The Committee on Rules has fixed the calendar for the 15th Legislative Day, Thursday, February 14, and bills may be called at the pleasure of the Speaker. The Rules Committee will next meet on Thursday, February 14, at 9:00 a.m., to set the Rules Calendar for the 16th Legislative Day.

HB 184 Streamlining Wireless Facilities and Antennas Act; enact

Bill Summary: House Bill 184, the 'Streamlining Wireless Facilities and Antennas Act', streamlines the deployment of wireless broadband in public rights-of-way.

A wireless provider may collocate, meaning to install, mount, modify, or replace, small wireless facilities (small cells) and install, modify, or replace associated poles or decorative poles under Code Section 36-66 without an agreement with an authority and without an implementing ordinance. An authority includes a county, consolidated government, or a municipality, but does not include electric utilities. An authority may make available to providers any rates, fees, or other terms that comply with this Code section and are adopted by ordinance, resolution, or another authority document. If there is no ordinance, resolution, or other document, providers may collocate small cells and install, modify, or replace associated poles pursuant to the stipulations outlined in the Code. An authority may not require a provider to enter into an agreement, but nothing prohibits the two parties from voluntarily entering into an agreement in regard to rates, fees, and other terms; however, should there be an agreement, the authority shall make it available for public inspection and available for adoption under the same terms and conditions to any requesting provider.

An applicant shall pay the following fees to receive a permit to collocate a small cell or to install, modify, or replace a pole or a decorative pole: 1) a fee for each application for the collocation of small cells on an existing pole to be assessed by the authority that shall not exceed \$100 per small cell; 2) a fee for each application for each replacement pole associated with small cells assessed by the authority that shall not exceed \$250; 3) a fee for each application for a new pole associated with small cells assessed by an authority that shall not exceed \$1,000 per pole; 4) an annual right-of-way occupancy rate assessed by the authority for nonexclusive occupancy that shall not exceed \$100 per year for each small cell on an existing or replacement pole or \$200 per year for each new pole; 5) an annual attachment rate for collocations on authority poles not to exceed \$40 per year per small cell; 6) a fee for make-ready work; and 7) a generally applicable nondiscriminatory fee for any permit required under generally applicable law. The monetary caps provided shall increase 2.5% annually beginning on January 1, 2021.

If the Federal Communications Commission (FCC) small cell order, which states that rates and fees must be cost-based, is overturned and not subject to further review or appeal, then the fees mentioned above shall double beginning on July 1 of the calendar year following the final FCC review decision. Furthermore, on July 1 of the following year, the monetary caps shall be removed and applicants shall pay any fees or rates that are considered fair and reasonable compensation to the authority.

An applicant, or the person who owns or operates the small cell, may remove their small cells from the right-of-way after giving the authority at least 30 days written notice. The provider may cease payment to the authority upon the actual removal of the small cells. If the applicant fails to return the right-of-way to its prior condition within 90 days of removal, the authority may restore the right-of-way and charge the applicant the authority's reasonable, documented restoration cost, plus a penalty not to exceed \$500. The authority may suspend the ability of the applicant to receive any new permits until the applicant has paid the amount assessed.

A provider shall not collocate a small cell in the right-of-way or install, modify, or replace a pole for small cell collocation without first filing an application and obtaining a permit. If a provider fails to comply with this requirement, the authority may restore the right-of-way to its prior condition and charge the provider a reasonable, documented cost, plus a penalty not to exceed \$1,000. The authority shall make accepted applications publicly available, but may designate portions of the application as trade secrets.

An application shall not be required for inspections, testing, repairs, and modifications on poles or inspections, testing, or repairs on small cells. Furthermore, an applicant shall not be required to replace or upgrade antennas on a small cell. An authority shall not require a provider to obtain a permit or require fee payment for the installation, placement, maintenance, operation, or replacement of micro wireless facilities that are suspended on cables or power lines that are strung between poles or support structures.

A provider shall not apply to install a pole or replace a decorative pole unless it has determined it cannot meet the service objectives of the permit by collocating on an existing pole; however, the provider has the right to collocate subject to reasonable terms and conditions, providing they would not impose technical limitations or significant additional costs. The provider must certify the determination was made based on the assessment of a licensed engineer and a written summary of the basis for the determination.

Section §36-66C-7 contains the requirements governing an authority's review of applications for uses that are subject to administrative review. Within 20 days of receiving an application, the authority shall: 1) notify the applicant in writing of the commencement and completion dates of scheduled or anticipated widening, repair, reconstruction, or relocation of the applicable right-of-way within 24 months of the date the application is filed; 2) notify the applicant of any grounds for denial; and 3) determine whether the application is complete and inform the applicant of its determination in writing. A denial shall be sent in writing and identify all reasons for the denial, including the provisions of applicable codes and other standards.

Small cells and new, modified, or replacement poles to be used for collocation of small wireless facilities may be placed in the right of way as permitted, subject to applicable codes and the following requirements: 1) each new, modified, or replacement pole installed in the right-of-way in a historic district and in a residential zone shall not exceed 50 feet or greater above ground level; 2) each new, modified, or replacement pole installed in the right-of-way not in a historic district or residential zone shall not exceed 50 feet above ground level or 10 feet in height greater than the tallest existing pole in the same authority's right-of-way; and 3) new small cells in the right-of-way shall not exceed more than 10 feet above the existing pole or support structure or the height limits previously provided for a new, modified, or replacement pole.

HB 184 requires a wireless provider to comply with reasonable and nondiscriminatory requirements that prohibit communications service providers and electric service providers from installing poles in a right-of-way in an area designated for underground or buried facilities where the authority: has required all facilities other than light poles and attachments to be placed underground; does not prohibit the replacement of light poles or the collocation of small cells in the designated area; and permits wireless providers to seek a waiver of the underground requirements for the placement of a new pole to support small cells. An authority that adopts underground requirements after an agreement is made shall allow a wireless provider to maintain any small cells already collocated to any applicable pole or allow a wireless provider to replace the pole associated with a collocated device at the same location or alternate location within 50 feet of the prior location.

An authority shall approve an application for permitted uses described in subsection (a) of Code Section §36-66C-6 of the bill. This is unless the requested collocation of a small wireless facility or the requested installation, modification, or replacement of a pole or decorative pole interferes with the operation of traffic control equipment, fails to comply with applicable codes, or multiple other stipulations listed in HB 184.

A permit from the authority authorizes an applicant to undertake certain activities, but it does not create a property right or grant authorization or license to the applicant to impinge upon the rights of other people who may have an existing interest in the right-of-way. Additionally, once a permit is issued, collocation, installation, modification, or replacement shall be completed within six months after issuance. Once issued a permit, the applicant is authorized to undertake collocation, installation, modification, or replacement approved by the permit, as well as operate and maintain the small cell and any associated pole covered by the permit for a period of not less than 10 years. HB 184 also includes relocation and make-ready work provisions, in addition to small cell and pole abandonment timelines. An applicant shall not place small cells or poles in the right-of-way where they will interfere with any existing infrastructure or equipment.

Within a historic district, an applicant may collocate or place a pole only when it receives a permit from the authority per Code Section §36-66C-6 and complies with objective and reasonable aesthetic and structural requirements that have been made publicly available by the authority at least 30 days prior to submission of an application; however, the historic district requirements may not inhibit the provider's technology or service and the requirements shall not be considered a part of the small cell for the purpose of size restrictions.

For new pole applications in rights-of-way zoned for residential use, the authority may propose an alternate location within 100 feet of the requested location. The provider shall use the alternate location unless the location imposes technical limits or significant additional costs.

An applicant may collocate a small cell on a decorative pole or replace a decorative pole with a new decorative pole if the existing decorative pole will not structurally support the attachment; however, the applicant must receive a permit and comply with objective and reasonable aesthetic and structural requirements that have been made publicly available by the authority at least 30 days prior to the submission of the application. These requirements shall not inhibit the provider's service or technology and shall not be considered part of the size of the small cell in regard to size restrictions. The authority shall operate the fixtures on the replaced decorative pole and shall, absent an agreement between the authority and provider, take ownership of the new decorative pole.

Applicants may submit a consolidated application, provided the application shall be for a geographic area no more than two miles in diameter. The denial of one or more small cells or poles within a consolidated application shall not delay the processing of other small cells or poles in the application. An authority may issue a single permit or multiple permits for the small cells and poles in the consolidated application. The bill has further stipulations based on county, consolidated government, or city parcel size. If multiple applications are received by the authority to install two or more poles or collocate two or more small cells on the same pole, the authority shall resolve the conflicting requests in an appropriate, reasonable, and nondiscriminatory manner.

If an authority and provider entered into an agreement prior to October 1, 2019 addressing small cells or pole installations associated with small cells, House Bill 184 shall not apply to that authority until the agreement expires or is terminated.

HR 165 Property; conveyance of certain state owned real property; authorize

Bill Summary: HR 165 is a conveyance resolution for properties located in six counties, conveying property owned by the state of Georgia or amending those conveyances, as follows:

Article 1 conveys approximately 0.062 of an acre, being a portion the Savannah International Trade and Convention Center, under the custody of the Georgia Department of Economic Development, to the City of Savannah, or to a local government or state entity, for a consideration of \$10 so as long as the property is used for public purposes in perpetuity.

Article 2 conveys approximately 1.398 acres in fee and 1.244 acres of permanent easement, being a portion of approximately 146 acres, commonly known as the Atlanta Farmers Market, under the custody of the Georgia Department of Agriculture, to the Georgia Department of Transportation for the purpose of the construction of a C-D roadway to service the I-75 and I-285 interchange for a total consideration of \$529,976; said total consists of \$290,693 for the improved property, \$81,298 for the permanent easement, \$135,000 in cost to cure and \$22,935 in damage to trade fixtures.

Article 3 conveys approximately 15.005 acres of real property, commonly known as the Southwest Probation Center, under the custody of the Georgia Department of Corrections, to Colquitt County for \$10 so long as the property is used for a public purpose in perpetuity and that Colquitt County shall not take, nor fail to take, any action which would cause any outstanding tax exempt bonds to be deemed private activity bonds or arbitrage bonds under the tax code and shall not use the above-described property for any nongovernmental purpose, or any purpose that would give rise to private business use within the meaning of the tax code, which shall cause a reversion to the state of Georgia, or its successors and assigns, of all the rights, title, privileges, powers, and easement granted herein; or to a local government or state entity for fair market value; or by competitive bid

for fair market value.

Article 4 concerns a ground lease of approximately 0.68 acres, being a portion of 8.38 acres, commonly known as the Cumming Park and Ride Lot, under the custody of the Georgia State Road and Tollway Authority, to the city of Cumming for term of 50-years with a 25-year renewal option for a consideration of \$10,600 annually and the requirements that the city of Cumming maintain the storm water detention pond in accordance to law and remove of the water tank upon the termination of the lease.

Article 5 conveys approximately 41.188 acres, commonly known as Lanier Technical College at Oakwood, under the custody of the Technical College System of Georgia, to the Board of Regents of the University System of Georgia, or to a local government or state entity, for a consideration of \$10 so long as the property is used for public purpose in perpetuity.

Article 6 leases approximately 276 square feet of office space located in the Georgia Public Safety Training Facility, under the custody of the Georgia Public Safety Training Center, to Justice Federal Credit Union for a term of 10-years, with two 5-year renewal options, for an initial annual rent of \$5,000, to be increased annually at a compounded rate of 3 percent, and for such further terms and conditions as determined by the State Properties Commission as to be in the best interest of the state of Georgia.

HR 182 Property; granting of non-exclusive easements; authorize

Bill Summary: HR 182 authorizes the granting of non-exclusive easements for the construction, operation, and maintenance of facilities, utilities, roads, and ingress and egress in, on, over, under, upon, across, or through property owned by the state of Georgia in the counties of Barrow, Camden, Cobb, Floyd, Houston, and White, as follows:

Article 1 grants an easement to the Georgia Power Company or its successors and assigns over approximately one acre under the custody of the Georgia Department of Natural Resources to construct, install, operate, and maintain underground electrical distribution lines and associated equipment that will serve a new visitor center at Fort Yargo State Park for \$10.

Article 2 grants an easement to Georgia Power Company or its successors and assigns over approximately 1.56 acres under the custody of the Technical College System of Georgia for the construction, installation, operation and maintenance of underground and overhead electrical distribution lines to serve TCSG-265 (Classroom and Library Building) at the Camden County Campus of Coastal Pines Technical College for \$10.

Article 3 grants an easement to the city of Marietta or its successors and assigns over approximately 0.0157 of an acre under the custody of the States Properties Commission for the construction, installation, operation and maintenance of a pedestrian trail crossing, for the project known as Chattahoochee River (KMCR) Trail (P.I. 0010705) over the Western and Atlantic Railroad for \$1,879.

Article 4 grants an easement to the North Georgia Electric Membership Corporation or its successors and assigns over approximately 0.08 of an acre under the custody of the Georgia Department of Natural Resources for the construction, installation, operation and maintenance of underground distribution lines and underground electrical equipment to serve the new Department Region One Game Management and Fisheries Office Buildings for \$10.

Article 5 grants an easement to Flint Energies, Inc. or its successors and assigns over approximately 0.449 of an acre under the custody of the Department of Natural Resources for the construction, installation, operation and maintenance of underground electrical equipment and lighting poles at Flat Creek Public Fishing Area for \$10.

Article 6 grants an easement to Habersham Electric Membership Corporation or its successors and assigns over approximately 0.3 of an acre under the custody of the Department of Natural Resources for the construction, installation, operation and maintenance of underground electrical equipment and distribution lines to serve a new entrance sign at Hardman Farm Historic Site for \$10.
