**SB 20 Counties and Municipal Corporations; establishment of banking improvement zones; areas underserved; provide**

Bill Summary: SB 20 adds a new Code section to provide for the establishment of banking improvements zones. "Banking improvement zones" are areas within the jurisdiction of a local government set up for the purpose of encouraging the establishment of branches or representative offices of a bank where the community is currently being underserved by banking services. To form a banking improvement zone, local governments must submit an application to the Department of Community Affairs. In determining whether to establish a banking improvement zone, the department will consider the current number of banking sites in the area, consumer need, the economic viability and local credit needs of the local government, existing commercial development in the area, potential economic development caused by additional banking services, and whether any potential gains to a bank from an interest agreement is ample consideration for a substantial public benefit. Local governments may choose to designate a bank as the depository for local government funds through an ordinance or a resolution, which also designates a fixed interest rate for the local government that is at or below the posted two-year certificate of deposit rate at the bank.
