HB 684 Dental hygienists; delegable services and procedures that may be performed by hygienists; provide

Bill Summary: HB 684 increases access to preventative dental care in safety net settings and for underserved and needy populations.

Under the provisions of this bill, the requirement that a dental hygienist be supervised by a licensed dentist will not apply to dental hygienists who are practicing at approved safety net settings, such as: nonprofit clinics, long-term care facilities, federally qualified health centers, and school settings. Additionally, a dentist that delegated a dental hygienist to perform these duties must maintain a dental practice within 100 miles of the approved safety net setting.

A dentist may only authorize up to four dental hygienists to provide hygiene services. A dental hygienist who performs these services without direct supervision of a licensed dentist must provide written notice to each patient containing: (1) the name of the dental hygienist and authorizing dentist; (2) any dental hygiene issues identified during the service; and (3) a statement advising the patient to seek a more thorough examination by a dentist within 90 days of receiving such services.

The requirement of direct supervision does not apply to the performance of dental hygiene duties for a Medicare or Medicaid patient, including pediatric patients and pregnant mothers; however, the Georgia Board of Dentistry shall provide a rule or regulation for the appropriate degree of supervision by a licensed dentist in these situations.
